REVIEW REPORT BY THE CHAIRMAN

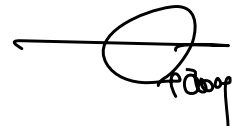

I am pleased to report that the performance of Trust Modaraba during the year 2021-22 remained strong with 98% increase in profit before tax which is a reflection of the effectiveness of oversight role of the Board of Directors and efforts of the management and staff to achieve the targets set for the year.

It is also encouraging to report that the improvements achieved by your Modaraba in all the key performance indicators including credit quality was duly acknowledged by the rating agency and after due analysis enhance the credit rating of the Modaraba by two points to BBB+/A-2 with assignment of “Stable” outlook.

As required under the code of Corporate Governance, an annual evaluation of the Board of Directors of Al-Zamin Modaraba Management (Private) Limited is carried out. The purpose of evaluation is to ensure that the Board’s overall performance and effectiveness is measured and benchmarked against expectations in the context of objectives set for the Modaraba.

For the financial year ended June 30, 2022, the Board’s overall performance and effectiveness has been assessed as “Satisfactory”. Improvement is an ongoing process leading to action plans. The overall assessment as “Satisfactory” is based on an evaluation of integral components, including visions, mission and values; engagement in strategic planning, formulation of policies, monitoring the organization’s business activities; financial resource management, effective fiscal oversight, equitable treatment of all employees and efficiency in carrying out the Board’s business.

The Board’s of Directors of the Company received agendas and supporting written material including follow up material in sufficient time prior to the Board and its committee meetings. The Board meets frequently enough to adequate its responsibilities. The non-executive and independent directors are equally involved in important decisions.

DIRECTORS' REPORT

The Board of Directors of Al-Zamin Modaraba Management (Private) Limited, the management company of Trust Modaraba is pleased to present to the certificate holders, the Directors' Report together with the audited financial statements of the Modaraba for the year ended 30th June, 2022.

ECONOMIC REVIEW

In the throes of the COVID 19 pandemic entering its third year, the world received yet another major shock as Russia launched a full scale military operation inside Ukraine. Not only has this caused a woeful humanitarian crisis, the economic upheaval this war has triggered is huge as evidenced by increasing prices of goods, supply chain disruptions, accelerating inflation and financial vulnerability. Trading between global economies have now become restricted and the financial pressures have mounted disproportionately on developing countries as they are caught in a vicious circle of inflation, geo-political strife and uncertainty with regards to way forward. The inflation world is experiencing now is higher than it has been in the past decades and with the expected slow growth of supplies inflation will remain high for longer period than previously anticipated. The fallout from the war in Ukraine compounds the challenges for world economy and once the hostilities in Ukrain subside, large scale coordinated support will be necessary to accelerate construction efforts. At the same time global effort is still needed to achieve a durable solution to COVID 19 pandemic.

Despite dual plight the world economic environment is experiencing on account of the Russia Ukraine conflict and raging pandemic, Pakistan's economy fared well on the strength of its external sector. The comfortable external balance position of Pakistan has been supported by surplus current account balance on the back of robust flow of remittances and a substantial recovery in exports. The inflow of workers' remittances has been increasing since 2018 and the trend continued in the financial year 2021-22 providing much needed support to country's foreign exchange reserves. FBR tax collections surpassed Rs.6.0 trillion mark for the first time in the history of Pakistan, and the financial year 2021-22 ended up by posting 29% growth in tax collections. However, on the other side, supply disruptions and rising commodity prices have inflated the import bill creating balance of payments crises for the country. Ongoing political unrest not only creating governance problems but also intensifying the uncertainties depicted interalia by the exchange rate depreciation which for Pakistan being an import dominated country will have far reaching consequences in the shape of rising inflation, financial distress and increased cost of production. Recent floods in Pakistan, inarguably the worst ever have submerged nearly one third of its territory and have transformed once populated areas into islands. The acute loss of farmland and agriculture is likely to be felt in the months and years ahead.

Pakistan's economy has time and again proved its resilience and the economic recovery after Covid 19 is a clear manifestation of the enormous potential the country possesses. For the policy makers, there is urgent need to address the long outstanding structural weaknesses of the economy and ensure political stability for business confidence private sector investment and industrial growth.

PERFORMANCE REVIEW

It is encouraging to report that the performance of the Modaraba during the year under review, even under the most challenging circumstances remained strong and all the key performance indicators registered healthy increase comparable to the previous year as is evident from the key financial highlights summarized below.

FINANCIAL YEAR	2021-22	2020-21
Total Income (Rs)	75,778,772	44,316,107
Profit before Management Fee (Rs)	14,840,203	9,017,057
Management Fee (Rs)	1,484,020	901,706
Profit before tax (Rs)	13,089,059	7,953,044
Tax	1,723,826	1,346,478
Profit after tax (Rs)	11,365,233	6,606,566
Net Profit margin	15%	14.9%
Return on equity	3.5%	2.1 %
Earning per certificate (Rs)	0.38	0.22

Aggregate income for the year from all the segments of operations stood at Rs.75.78 million as compared to Rs.44.32 million of the previous year registering a notable increase of 71%. The hall mark of the performance during the year has been recovery of Rs.50 million from litigated portfolio which provided much needed support to income and financial resources of the Modaraba. Effective deployment of available liquidity at attractive rates resulted in increase in the operational base of the Modaraba and further expansion of its business activities. Income from core business segment (Ijarah, Diminishing Musharakah, Murabahah) stood at Rs. 32.71 million as compared to Rs.26.34 million of the previous year translating into an increase of 24%. Net financing portfolio witnessed growth of 20% during the year and stood at Rs.305.61 million as at year end (FY:2021 Rs.255.41 million). Operating expenses increased by Rs.7.0 million during the year: major increase of which was noted in staff salaries, annual increments and payment of one-time fee of Rs.2.3 million to SECP for increase in authorized capital of the Modaraba. Unlike previous year, performance of stock exchange remained depressed and the stock market index which once touched highest level of 47,000 points in the previous year sunk to as low as 39,000 points during the year allowing only marginal returns on the equity

portfolio. Due to depreciation in the market price of the shares, unrealized loss of Rs.12.5 million had to be accounted for in compliance of the relevant accounting standards. As a prudent portfolio risk management strategy and in compliance of IFRS 9 the management had to enhance provision coverage by recording an amount of Rs.5.04 million on account of provisions against various classified accounts. After accounting for all the expenses, your Modaraba posted profit after tax to the tune of Rs.11.37 million as compared to Rs.6.60 million of the previous year registering an increase of 72%.

Disbursements during the year amounted to Rs.168 million in the core business activities as compared to Rs.130 million of the previous year. As a result of management's planned strategy, a shift was implemented in the client profile with more weightage to the corporate sector and high net worth individuals. Consequently, 57% of the disbursements during the year were made to the corporate sector followed by 38% to high net worth individuals and 5% to selective SMEs. This shift in portfolio mix towards corporate clients has improved the credit risk profile of your Modaraba. Consequently, the infection ratios have reduced considerably as compared to the previous year. Asset base of the Modaraba has increased to Rs.415 million (FY 21: 378 million) as at 30th June, 2022. Total equity base increased to Rs.321 million. Improved performance of your Modaraba enhanced earnings per certificate to Rs.0.38 as compared to Rs.0.22 for the preceding comparable period.

A careful assessment has been made to gauge the impact of recent floods on our portfolio in rural Sindh. Fortunately, the areas catered to by Trust Modaraba are located on the left bank where the damage is minimal. Trust Modaraba, therefore, does not anticipate any major impact on its rural financing portfolio barring some temporary delays in receipt of receivables.

CREDIT RATING

The management is pleased to report that VIS Credit Rating Company has upgraded the long term entity ratings of Trust Modaraba by 2 points that is from BBB-to BBB+ and have also upgraded short term rating from A3 to A2. Outlook on the ratings is also assigned as "Stable".

The upward revision in ratings takes into account growth in financing portfolio, improvement in credit quality resulting in substantial reduction in NPLs and improvement in infection ratios. The rating company has also duly acknowledged internal efficiencies achieved in the operations of the Modaraba. Recovery from the litigated portfolio and its consequent positive impact on the growth and profitability of the Modaraba has also been duly taken into consideration.

The upward revision in the rating has opened avenues for resource mobilization from the Banks which shall be duly capitalized for business growth and profitability.

FUTURE OUTLOOK

The current economic situation is dominated by soaring energy prices, spiraling food costs, rising interest rates and the possibility of higher inflation in the backdrop of IMF conditions of Extended Fund Facility for Pakistan. On the political arena, the situation is no less than a turmoil and the nation is paying heavy price of ongoing confrontation which does not seem to reach a reasonable arbitration any time soon. Recent floods have further added to the miseries causing serious damage to the lives and livelihoods of the already vulnerable segment of our society. The times ahead are turbulent, way forward is hazy and it is uncertain as to how market dynamics will shape up in the forthcoming period. Nevertheless, even under these challenging circumstances, it is your management's resolve to continue its policies with the same prudence and focus for the growth and profitability of the Modaraba. Having achieved improvements in credit ratings, it is also planned to mobilize credit lines from the Banks to supplement existing financial resources of the Modaraba for increased business activities and resultant profitability. Recovery from litigated portfolio has hitherto remained an area of special focus and shall continue to remain so for expeditious settlement of the cases mostly relating to legacy portfolio now at advance stages of finalization.

DIVIDEND

During the year, there have been two major developments which had an impact on the distributable profits of your Modaraba. As you are aware, section 37 of the Modaraba Companies and Modarabas (Floatation & Control) Ordinance 1980 allowed tax exemption to the Modarabas which distributed 90% of the profits to its certificate holders. The said tax exemption has since been revoked and the entire Modaraba sector is now subject to corporate tax at the applicable rate. Secondly, IFRS 9 has also been made a mandatory requirement applicable with effect from 1st July, 2021 necessitating higher provisioning requirements. Financial impact of both the aforementioned aspects have reduced the pool of distributable profits which otherwise would have been available had the above factors not been enforced. The Board therefore, after detailed deliberations had to make the hard choice to pass over the dividends this year as any payout below the minimum benchmark of 5% would be uneconomical for the certificate holders as well as Modaraba. Your management is making all out efforts to increase the profitability of the Modaraba by implementing the strategies planned and mentioned above for the ensuing period to ensure better profitability and payout to the certificate holders.

GOVERNANCE FRAMEWORK

Trust Modaraba has put in place sound governance framework which ensures corporate diversity, strategic direction, clear objectives, well defined policies and sound control systems. It provides the Board to have a clear oversight of the performance of the entity, its committees and effectiveness of the overall control system.

Trust Modaraba has a formal process of evaluation of the performance of the Board of Directors and its committees. The evaluation is carried out once a year. To undertake the evaluation process, comprehensive proforma are circulated to the members for their

input. The responses are compiled and results shared in the Board meeting for collective feedback of the members on the areas requiring further improvements.

The Board of Directors meets at least once in every quarter to review the financial performance of the Modaraba, business plans, projections, related party transactions, regulatory compliance requirements and other significant developments in the sector impacting future performance of the Modaraba.

Composition of the Board and Meetings

The Board of Directors consists of qualified individuals possessing knowledge, experience, and skill in various professions with the leadership and vision to act in the best interests of the Modaraba and its certificate holders. The Board of Directors has a major role to play in deciding corporate policy and strategic direction.

Mr. Etrat Hussain Rizvi	4
Mr. S. Shahnawaz Rizvi	3
Mr. Sohail Ansar	3
Mr. Muhammad Yasin	2
Ms. Dr. Namoos Baqar	2

As per the Board's Remuneration Policy, Chairman, non-executive directors and independent directors are entitled only for the fee for attending the meetings which is paid by the Management Company.

Audit Committee and Internal Control System

The Management of your Modaraba believes in good corporate governance implemented through a well defined system of check and balances. The Board of Directors have established a sound system of internal controls which is effectively implemented at all levels within the Modaraba.

The Board has constituted Audit Committee in compliance of the requirements of the Code of Corporate Governance which comprises of four (4) members including the Chairman of the Committee who is an independent director. Four meetings of the Audit Committee were held during the year which were attended by the members as follows:

NAME	MEETINGS ATTENDED
Mr. Syed Shahnawaz Rizvi (Chairman)	3
Mr. Arshad Farooq (Member)	4
Mr. Etrat Hussain Rizvi (Member)	4
Mr. Sohail Ansar (Member)	3
Mrs. Hamida Aqeel (Secretary)	4

The Audit Committee meets once in every quarter to review annual and interim financial statements of the Modaraba prior to their approval by the Board. The Audit Committee also focuses on compliance with applicable accounting standards, any change in the accounting policies and practices, all related party transactions and also significant adjustments resulting from audit.

Internal Audit functions are entrusted to an independent firm of Chartered Accountants. Internal audit reports and compliance matrix are presented by the Internal Auditors to the Audit Committee on a quarterly basis.

Human Resource and Remuneration Committee

The Board has constituted Human Resource and Remuneration Committee to deliberate on the key issues of human resource management policies. The Committee comprises of the following members:

Mr. Etrat Hussain Rizvi	Chairman
Mr. Shahnawaz Rizvi	Member
Mr. Basheer A, Chowdry	Member
Mr. Mohammad Yasin	Member
Ms. Hamida Aqeel	Secretary

One meeting of the Human Resource Committee was held during the year with full attendance of the members.

WITHDRAWAL OF TAX EXEMPTIONS

By virtue of section 37 of the Modaraba Companies and Modarabas (Floatation & Control) Ordinance 1980, tax exemption was allowed to the Modarabas which distributed 90% of their net profits to the certificate holders. The said exemption has since been withdrawn. The entire sector is now subject to corporate tax and necessary provision has accordingly been made in the financial statements for the year ended on 30th June, 2022.

AUDITORS

On the recommendations of the Audit Committee, the present auditors M/s Grant Thornton Anjum Rahman, Chartered Accountants have been re-appointed as external auditors of Trust Modaraba for the year 2022-23 subject to the approval of Registrar Modaraba.

PATTERN OF CERTIFICATE HOLDING

Pattern of certificate holding as at 30th June 2022 is attached. No trade in the certificates of the Modaraba was carried out by the Directors, CEO, CFO, Company Secretary and their spouses.

VALUE OF THE FUNDS INVESTMENT

The Modaraba operates a contributory provident fund for all its permanent employees. Equal monthly contributions are made, both by the Modaraba and employees to the fund @10% of the basic salary. Based on latest accounts of the fund, the value of its investments works out to be Rs.5,828,699 / as at 30th June, 2022.

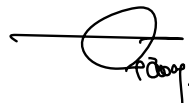

EARNINGS PER CERTIFICATE

The earning per certificate of the Modaraba for the year ended 30th June, 2022 stood at Rs.0.38 per certificate as compared to Rs.0.22 per certificate for the previous year.

ACKNOWLEDGEMENTS

The Board wishes to place on record its appreciations for the support and guidance provided by the Registrar Modaraba and Securities and Exchange Commission of Pakistan. The Board also acknowledges the hard work and commitment of the executives and staff members. Finally, the Board extends its gratitude to the certificate-holders who remained committed to the Modaraba and looks forward to their continued support in future too.

ڈائریکٹر کی رپورٹ

الضامن مضاربہ منجمنٹ (پرائیویٹ) لمیٹڈ کے بورڈ آف ڈائریکٹرز (بورڈ کے ناظمین)، جو ٹرسٹ مضاربہ کی منجمنٹ کپنی ہے، کی جانب سے 30 جون 2022ء اختتام پذیر سال پر مضاربہ کی ڈائریکٹرز کی رپورٹ بمع محتسب شدہ مالیاتی دستاویزات اپنے سرٹیفیکیٹ کنڈگان کو پیش کرتے ہوئے خوش محسوس کرتے ہیں۔

معاشی جائزہ

کووڈ-19 کی عالمی وبا کی تکالیف تیسرے سال میں داخل ہو رہی ہے اور دنیائے ایک اور بڑا چھکادیکھا جس کی وجہ روس کا یوکرین میں بڑے پیمانے پر ملٹری آپریشن کا آغاز تھا۔ اس جنگ نے نہ صرف پریشان کن انسانی بحران اور معاشی ہجڑا پیدا کیا، جیسا کہ غذائی اجناس کی بڑھتی ہوئی قیمتیں، سپلائی چین کا تعطل، تیزی سے بڑھتی ہوئی مہنگائی اور مالیاتی زود پڑی سے ظاہر ہے۔ عالمی معیشتوں میں تجارت محدود ہو چکی ہے اور ترقی پذیر ممالک پر غیر متناسب مالیاتی دباؤ بڑھ چکا ہے کیونکہ وہ مہنگائی کے شیطانی چکر، جغرافیائی-سیاسی تنازعات اور مستقبل کے بارے میں غیر یقینی کشاکش کا شکار ہو چکے ہیں۔ دنیا اب جو مہنگائی دیکھ رہی ہے وہ گذشتہ کئی دہائیوں سے زیادہ ہے اور سپلائی کی متوقع سست نمونے توقع ہے کی زیادہ مہنگائی اندازہ لگائی ہوئی مدت سے زیادہ طویل مدت تک رہے گی۔ یوکرین میں جنگ کے اثرات نے عالمی معیشت کے لیے مسائل پیدا کر دیے ہیں اور جب یوکرین میں جنگی کاروائیاں کم ہوں تو تعمیراتی کوششوں میں بڑے پیمانے کی مربوط مدد کی ضرورت ہوگی۔ اسی دوران کووڈ-19 کی عالمی وبا کے پائیدار حل کے لیے عالمی کوششوں کی ضرورت ہوگی۔ روس-یوکرین جنگ اور تند و تیز عالمی وبا کی وجہ سے جو عالمی معاشی ماحول دہری پریشانی کا شکار ہے، پاکستان کی معیشت بیرونی سیکٹر کی مضبوطی کی وجہ سے اچھی رہی۔ پاکستان کی اطمینان بخش بیرونی بیلنس کی صورت حال کی معاونت فالتو (surplus) جاری رکھنے کے بیلنس جس کی وجہ سے بھرپور اندرونی ترسیل زر اور برآمدات میں خاصی بحالی رہی۔ سال 2018ء سے اندرونی ترسیل زر میں اضافہ ہو رہا ہے اور یہ رجحان مالی سال 2022ء میں بھی جاری رہا جس نے ملک کے غیر ملکی زر مبادلہ کے ذخائر میں مطلوبہ معاونت کی۔

پاکستان کی تاریخ میں FBR نے پہلی مرتبہ 6.0 کھرب روپے سے زیادہ کی ٹیکس کی وصولیائی کیں جس کی وجہ سے مالی سال 2022ء کا اختتام ٹیکس کی وصولی میں 29 فیصد کے اضافے کا اندراج کیا۔ تاہم، دوسری جانب، سپلائی میں تعطل اور اجناس کی بڑھتی ہوئی قیمتوں نے درآمدات کے بل کو حد سے زیادہ بڑھا دیا جس کی وجہ سے، ملک کے لیے ادائیگی کے توازن کا بحران پیدا کر دیا۔ جاری سیاسی بے چینی نہ صرف انتظامی مسائل پیدا کر رہے ہیں بلکہ مبادلہ نرخ کی فرسودگی کی وجہ سے غیر یقینی صورت حال کو بڑھ رہا ہے، پاکستان ایک درآمدات پر انحصار کرنے والا ملک ہے، اس پر بڑھتی ہوئی مہنگائی، مالی دباؤ اور بڑھی ہوئی پیداوار کی لاگت پر دیر پا اثرات ہوں گے۔ پاکستان میں حالیہ سیلاب اب تک کا بدترین ہے جس نے ایک تہائی زمین، جس میں لوگ آباد تھے اسے ڈبو کر جزیروں میں تبدیل کر دیا ہے۔

پاکستان کی معیشت نے بار بار یہ ثابت کیا ہے کہ اس میں دوبارہ ابھرنے کے صلاحیت ہے، اور کووڈ-19 کے بعد معاشی بحالی واضح مظاہر ہے جس سے ظاہر ہوتا ہے کہ ملک کے پاس غیر معمولی صلاحیت ہے۔ پالیسی ساز اداروں کے لیے ضروری ہے کہ وہ فوری طور پر معیشت کی دیرینہ باقی ڈھانچائی کمزوریوں دور کریں اور سیاسی استحکام کو یقینی بنائیں تاکہ سرمایہ کاری میں نجی شعبے کا کاروبار میں اعتماد اور صنعتی نمو کو بحال کیا جائے۔

کارکردگی کا جائزہ

زیر جائزہ سال میں انتہائی مشکل حالات کے باوجود یہ بات حوصلہ افزا ہے کہ آپ کے مضاربہ کی کارکردگی مستحکم رہی اور گذشتہ سال کے مقابلے میں کارکردگی کے تمام اہم اشارے میں صحت مند اضافے کا اندراج ہوا جو اہم مالیاتی جھلکیوں کے درج ذیل خلاصے سے ظاہر ہے۔

زیر جائزہ سال میں، مضاربہ کے آپریشن کے تمام شعبہ جات گذشتہ سال کی مجموعی آمدنی 44.32 ملین روپے میں 71 فیصد کے نمایاں اضافے 25.961 سے بڑھ کر 75.78 ملین روپے رہی۔ سال کے دوران کارکردگی کی نمایاں خصوصیت میں مقدمہ بازی کے شکار پورٹ فولیو سے 50 ملین روپے کی وصولی شامل ہے جس نے مضاربہ آمدن اور مالیاتی ذرائع میں مطلوبہ مدد فراہم کی۔ دستیاب سیالیت (liquidity) کے پرکشش نرخوں پر موثر استعمال کا نتیجہ مضاربہ کی آپریشن کی بنیاد میں اور مزید کاروباری سرگرمیوں میں اضافہ کی صورت میں نکلا۔ بنیادی کاروبار کے شعبہ جات (اجارہ، گھلٹنا ہوا مشارکہ، مراحبہ) سے آمدنی 32.71 ملین روپے رہی جبکہ گذشتہ سال اس کی مالیت 26.34 ملین روپے تھی جو 24 فیصد اضافہ دکھا رہا ہے۔ سال کے اختتام پر مجموعی فنانسنگ پورٹ فولیو نے 20 فیصد اضافے سے 305.61 ملین روپے رہا (سال 2021 میں 255.41 ملین روپے)۔ سال کے دوران آپریٹنگ اخراجات میں 7.0 ملین روپے جو عملے کی تنخواہیں، سالانہ تنخواہوں میں اضافہ اور ایک مرتبہ کی 2.3 ملین روپے کی فیس جو مضاربہ کے ادا شدہ سرمایہ میں اضافے کے لئے SECP کو ادا کی گئی تھی۔ گذشتہ

سال کے برعکس اسٹاک ایکسیج کی کارکردگی دباؤ میں رہی اور اسٹاک مارکیٹ انڈیکس نے گزشتہ سال ایک مرتبہ 47,000 پوائنٹس کی بلند ترین سطح کو چھوا تھا وہ سال کے دوران گر کر 39,000 پوائنٹس پر آ گیا تھا جس کی وجہ سے ملکیتی سرمایہ پورٹ فولیو سے معمولی آمدنی ہوئی۔ حصص کی منڈی کی قیمت میں فرسودگی (depreciation) کی وجہ سے متعلقہ اکاؤنٹنگ اسٹینڈرڈ کی تعمیل میں ممکنہ 12.5 ملین روپے ہونے والے نقصان کا حساب کتاب کرنا ہوگا۔ بطور محتاط پورٹ فولیو رسک مینجمنٹ حکمت عملی اور IFRS 9 کی تعمیل کرتے ہوئے انتظامیہ کو مختلف درجہ بند اکاؤنٹس کی مدد میں شخص کرنے کے کا دائرہ کار بڑھا کر 5.04 ملین روپے کرنا ہوگا۔ آپ کے مضاربہ نے تمام اخراجات کا حساب کتاب کرنے کے بعد گزشتہ سال کے 6.60 ملین روپے کے منافع بعد از ٹیکس میں 72 فیصد اضافے سے بڑھ کر 11.37 ملین رہا۔

سال کے دوران، بنیادی کاروباری سرگرمیوں میں قرضہ جات کی فراہمی 168 ملین روپے رہی جبکہ گزشتہ سال اس کی مالیت 130 ملین تھی۔ انتظامیہ کی منصوبہ بندی کے ساتھ حکمت عملی کا نکتہ پر وفاق میں تبدیلی نافذ کی گئی ہے جس میں زیادہ اہمیت اداراتی شعبے اور بلند خالص مالی قدر رکھنے والے افراد کو دی گئی ہے۔ اس کے نتیجے میں، سال کے دوران، 57 فیصد اداراتی سیکٹر اور اس کے بعد 38 فیصد بلند خالص قدر رکھنے والے افراد کو اور 5 فیصد منتخب SMEs کو قرضہ جات کی فراہمی کی گئی۔ اداراتی کلائنٹس کی جانب پورٹ فولیو کس کی تبدیلی نے آپ کے مضاربہ کے کریڈٹ رسک پر وفاق کو بہتر کیا ہے۔ اس کے نتیجے میں گزشتہ سال کے مقابلے میں انفیکشن ریشوز (infection ratios) میں اس سال نمایاں کمی آئی ہے۔ 30 جون 2022 پر ہائش جات کی بنیاد بڑھ کر 415 ملین روپے ہو گئی ہے (مالی سال 2021: 378 ملین روپے)۔ کل ملکیتی سرمایہ کی بنیاد بڑھ کر 321 ملین روپے ہو گئی ہے۔ آپ کے مضاربہ کی بہتر کارکردگی نے آمدنی فی سرٹیفکیٹ کو بڑھا کر 0.38 روپے کر دیا ہے جبکہ اس کے مقابلے گزشتہ سال اسی مدت کے دوران یہ 0.22 روپے تھی۔

حالیہ سیلاب کے دہائی سندھ میں ہمارے پورٹ فولیو پر اثرات کی پیمائش کے لیے ایک محتاط تخمینہ لگا یا جا چکا ہے۔ خوش قسمتی سے، ٹرسٹ مضاربہ جن علاقوں میں کام کرتا ہے وہ لیفٹ بینک پر واقع ہیں جہاں نقصان کم ہے۔ اس لیے ٹرسٹ مضاربہ، اپنے دہائی فنانسنگ پورٹ فولیو پر کسی بڑے اثرات کی توقع نہیں کر رہا، ماسوائے وصولیوں میں عارضی تاخیر کے۔

کریڈٹ درجہ بندی

انتظامیہ اس بات کی اطلاع دیتے ہوئے خوشی محسوس کرتی ہے کہ وی آئی ایس۔ کریڈٹ ریٹنگ کمپنی لیئڈ نے ٹرسٹ مضاربہ کی دو پوائنٹس کے اضافے سے طویل المدت۔ اینٹیٹی (entity) ریٹنگس BBB-/BBB+ (تین B نئی سے تین B مثبت) اور قلیل المدت ریٹنگ میں بھی اضافہ کر کے A3 سے بڑھ کر A2 کر دیا ہے۔ ان ریٹنگس کا پس منظر مستحکم تفویض کیا ہے۔ ان نظر ثانی شدہ ریٹنگس میں اضافے کی بنیاد فنانسنگ پورٹ فولیو کی نمو، کریڈٹ معیار میں بہتری کا نتیجہ غیر فعال قرضہ جات (NPLs) میں خاصہ کمی اور انفیکشن ریشوز میں بہتری کی صورت میں نکالا۔ ریٹنگ کمپنی نے مضاربہ کے آپریشن میں اندرونی صلاحیت کا باقاعدہ اعتراف کیا ہے۔ مقدمے کا شکار پورٹ فولیو کی بحالی اور اس کے نتیجے میں مضاربہ کی نمو اور منافع بخشی پر مثبت اثر کو بھی باقاعدہ مد نظر رکھا گیا تھا۔ ریٹنگ میں اضافے پر نظر ثانی نے بینکوں سے مالی ذریعہ متحرک کرنے کے نئے مواقع کھول دیے ہیں جس کو کاروباری نمو اور منافع بخشی میں اضافے کے کام میں لایا جائے گا۔

امید مستقبل

پاکستان کے لیے IMF کے توسیع شدہ فنڈ کی سہولت کی شرائط کے پس منظر میں موجودہ معاشی صورتحال میں بڑھتی ہوئی توانائی کی قیمتیں، بڑھتی ہوئی غذا کی لاگتیں، بڑھتا ہوا سودی نرخ اور امکانی طور پر بلند تر افراط زر نمایاں ہیں۔ سیاسی اکھاڑے میں صورتحال افزا تفری سے کم نہیں ہے اور قوم اس جاری محاذ آرائی کی بھاری قیمت ادا کر رہی ہے اس کے جلد تصفیہ پر پہنچنے کو کوئی امکان نہیں ہے۔ حالیہ سیلاب نے پریشانیوں میں مزید اضافہ کیا ہے اور پہلے سے ہی زود پڑیر لوگوں کی زندگیوں اور ذرائع معاش کو بہت نقصان پہنچا ہے۔ آنے والا وقت انتشار انگیز ہے، آگے کا راستہ دھندلا ہے اور یہ بات غیر یقینی ہے کہ آنے والے وقت میں مارکیٹ کی حرکیات (dynamics) کیا شکل اختیار کرتی ہے۔ اس مسائل والے حالات کے باوجود آپ کے مضاربہ کا تہیہ ہے کہ اپنی پالیسیوں کو اس دہائی سے جاری رکھے گا اور مضاربہ کی نمو اور منافع بخشی پر توجہ رکھے گا۔ کریڈٹ درجہ بندی میں بہتری حاصل کرنے کے بعد، یہ منصوبہ بنایا گیا ہے کہ بینکوں سے کریڈٹ لائن حاصل کی جائیں تاکہ مضاربہ کے موجودہ مالی وسائل کی معاونت ہو تاکہ کاروباری سرگرمیوں اور اس کے نتیجے میں منافع بخشی میں اضافہ ہو۔ مقدمے بازی کے شکار پورٹ فولیو اب تک خصوصی توجہ کا مرکز ہے اور یہ توجہ تیزی سے کیسز کے تصفیہ تک جاری رہے گی جو میراث کے پورٹ فولیو سے متعلق ہیں اور اب وہ تمام تصفیہ کے حتمی مراحل میں ہیں۔

مستقیم منافع

سال کے دوران دو بڑی پیش رفتیں ہوئی ہیں جن کا آپ کے مضاربہ کے قابل تقسیم منافع پر اثر ہوا۔ جیسا کہ آپ آگاہ ہیں کہ مضاربہ کمپنیز اور مضاربہ (فلو ٹیشن اور کنٹرول) آرڈینینس 1980 کی شق نمبر 37 مضاربہ کو جو اپنے منافع کا 90 فیصد اپنے سرٹیفکیٹس کنندگان میں تقسیم کرتا ہے اس ٹیکس سے استثنیٰ حاصل ہے۔ مذکورہ ٹیکس کا استثنیٰ ختم کیا جا چکا ہے اور اب تمام مضاربہ سیکٹر پر لاگو نرخ سے کارپوریٹ ٹیکس لاگو ہوگا۔ دو نم یہ کہ پہلی جولائی 2021 سے IFRS 9 کو لازمی ضرورت کے طور پر لاگو کر دیا گیا ہے جس کے تحت بلند تر منافع مختص کرنا ہوگا۔ دونوں مذکورہ بالا پہلوؤں کے مالی اثر کی وجہ سے جمع شدہ قابل تقسیم منافع کم ہو گیا ہے بصورت دیگر وہ دستیاب ہوتا اگر ان عناصر کا نفاذ نہ ہوتا۔ اس لیے بورڈ نے کافی سوچ بچار کے بعد یہ سخت چوائس کی ہے کہ اس سال مستقیم منافع نہ دیا جائے کیونکہ کوئی بھی ادائیگی کم سے کم 5 فیصد کے بیٹنارک سے کم ہونا سرٹیفکیٹس کنندگان اور مضاربہ کے معاشی طور پر غیر دانشندانہ قدم ہوگا۔ آپ کی انتظامیہ بھرپور کوششیں کر رہی ہے کہ اوپر بیان کردہ حکمت عملی کے نفاذ سے آنے والی مدت میں بہتر منافع بخشی اور سرٹیفکیٹس کنندگان کو ادائیگی کو یقینی بنایا جا سکے۔

نظم و ضبط کا ڈھانچہ

ٹرسٹ، مضاربہ، نظم و ضبط کا مستحکم ڈھانچہ قائم کر چکا ہے جو اداراتی تنوع، تزویراتی سمت کا تعین، واضح مقاصد، وضاحتی پالیسیاں اور نگرانی کے موثر نظام کو یقینی بنانے گا۔ یہ، بورڈ کو اور اسے، اس کی کمیٹیوں کی کارکردگی کی واضح نگرانی کا موقع اور مجموعی نگرانی کا موثر نظام فراہم کرتا ہے۔ ٹرسٹ مضاربہ کے پاس بورڈ آف ڈائریکٹرز اور اس کی کمیٹیوں کی کارکردگی جانچنے کا باضابطہ طریقہ کار ہے۔ کارکردگی کی جانچ پڑتال سال میں ایک مرتبہ کی جاتی ہے۔ کارکردگی کا جائزہ لینے کے طریقہ کار میں، ارکان کو ان کی رائے حاصل کرنے کے لیے ایک جامع پرو فارما (proforma) بھیجا جاتا ہے۔ پھر ان آراء کو مرتب کیا جاتا ہے اور نتائج بورڈ میننگ میں پیش کئے جاتے ہیں تاکہ جن ایریا میں مزید بہتری کی ضرورت ہو اس پر ارکان کیا اجتماعی رائے حاصل کی جاسکے۔

بورڈ کے ناظمین، مضاربہ کی مالیاتی کارکردگی، کاروبار کے منصوبے، حکمت عملیاں، متعلقہ فریق کے سودوں، انضباطی ضروریات کی تعمیل اور سیکرٹری میں دیگر اہم تبدیلیاں جو مضاربہ کی کارکردگی پر اندازہ ہو سکتی ہیں کا جائزہ لینے کے لیے ہر سہ ماہی میں کم از کم ایک مرتبہ ملاقات کرتے ہیں۔

بورڈ کی ساخت اور اجلاس

بورڈ آف ڈائریکٹرز کے ارکان تعینم یافتہ اشخاص ہیں جن کے پاس مختلف اقسام کی پیشہ ورانہ معلومات، تجربہ اور قائدانہ صلاحیتیں اور بصیرت موجود ہیں جن کے استعمال سے وہ مضاربہ اور سرٹیفیکیٹس کنڈرگان کے لئے فائدہ مند ہو سکتا ہے۔ بورڈ آف ڈائریکٹرز کا ادارتی پالیسی اور تزویراتی سمت کے تعین میں اہم کردار ہے۔

بورڈ کی مشارکہ پالیسی کے مطابق چئیرمین، نان ایگزیکٹو ڈائریکٹرز اور آزاد ڈائریکٹرز صرف اجلاس میں شرکت کی فیس کے حقدار ہیں جس کی ادائیگی پیمنٹ کمپنی کرتی ہے۔

آڈٹ کمیٹی اور اندرونی نگرانی کا نظام

آپ کے مضاربہ کی انتظامیہ نے ادارتی نظم و ضبط کے ضوابط پر یقین رکھتی ہے جو ایک معیاری نگرانی کے نظام کے ذریعے نافذ کیا گیا ہے۔ بورڈ آف ڈائریکٹرز ایک مضبوط اندرونی نگرانی کا نظام تشکیل دے دیا ہے اور اس کو مضاربہ کی ہر سطح پر نافذ کیا جا چکا ہے۔ بورڈ ادارتی نظم و ضبط کے ضوابط تعمیل کرتے ہوئے آڈٹ کمیٹی تشکیل کر چکا ہے جو چار (4) افراد پر مشتمل ہے اور وہ تمام بشمول چیرمین کمیٹی جو آزاد ڈائریکٹرز ہیں۔ سال کے دوران بورڈ آف ڈائریکٹرز کے چار اجلاس ہوئے اور ہر ڈائریکٹر کے اجلاس میں حاضری کی تفصیلات درج ذیل ہے:

اجلاس میں شرکت کی تعداد

نام	تعداد
جناب سید شاہنواز رضوی (چئیرمین)	3
جناب ارشد فاروقی (رکن)	4
جناب عزت حسین رضوی (رکن)	4
جناب سہیل انصار (رکن)	3
بیگم حمیدہ عقیل (معتد)	4

آڈٹ کمیٹی، بورڈ کی منظوری سے پہلے، مضاربہ کی سالانہ اور درمیانی مدت کی مالیاتی دستاویزات کا جائزہ ہر سہ ماہی میں لیتی ہے۔ آڈٹ کمیٹی اکاؤنٹنگ کے مضاربہ پر لاگو معیار کی تعمیل، اکاؤنٹنگ پالیسی اور پریکٹس میں تبدیلی، تمام متعلقہ پارٹی سے لین دین اور آڈٹ کے نتیجے میں اہم ردوبدل پر بھی توجہ دیتی ہے۔

اندرونی آڈٹ کے فنکشن ایک آزاد چارٹرڈ اکاؤنٹنگ فرم کے سپرد کردی ہیں۔ انٹرنل آڈٹ سہ ماہی کی بنیاد پر، اندرونی آڈٹ کی رپورٹس اور تعمیل کی میٹرز آڈٹ کمیٹی کو پیش کرتی ہے۔

انسانی وسائل اور مشاہرہ کمیٹی

انسانی وسائل کی انتظامی پالیسیوں کے بنیادی مسائل پر غور و خاص کرنے کے لیے بورڈ نے انسانی وسائل اور مشاہرہ کمیٹی تشکیل دے دی ہے۔ کمیٹی مندرجہ ذیل ارکان پر مشتمل ہے:

جناب عزت حسین رضوی	چیئر مین
جناب شہناز رضوی	رکن
جناب بشر اے۔ چودھری	رکن
جناب محمد یاسین	رکن
جناب حمیدہ عقیل	معمد

سال کے دوران انسانی وسائل کمیٹی کا ایک اجلاس ہوا جس میں تمام ارکان نے شرکت کی۔

ٹیکس استثنیٰ سے دستبرداری

مضاربہ کمپنیز اور مضاربہ (اجراء اور کنزول) آرڈیننس 1980 کی شق نمبر 37 کے مطابق مضاربہ کو استثنیٰ حاصل تھا کہ اگر وہ اپنے خاص منافع کا 90 فیصد اپنے سرٹیفیکیٹ کنندگان میں تقسیم کر دے۔ مذکورہ بالا استثنیٰ واپس لے لیا جا چکا ہے۔ تمام سیکرٹری ادارتی ٹیکس لاگو ہو گا اور 30 جون کو اختتام پذیر سال کی مالی دستاویزات میں اس سے متعلق ضروری اقدامات کئے جا چکے ہیں۔

مختب (Auditors)

آڈٹ کمیٹی کے مشورے کے تحت، میسرز۔ گرانٹ تھورٹن انٹرنیشنل، چارٹرڈ اکاؤنٹنٹس موجودہ بیرونی مختب کے 2022-23 کے لیے بطور بیرونی مختب کے انتخاب کی دوبارہ منظوری دی ہے جو رجسٹرار مضاربہ کی منظوری سے مشروط ہے۔

سرٹیفیکیٹ رکھنے کا رجحان

30 جون 2022 پر سرٹیفیکیٹ رکھنے کا رجحان منسلک ہے۔ ڈائریکٹرز، CEO، CFO، کمپنی سیکریٹری اور ان کے شرکاء حیات اور ان کے نابالغ بچوں نے سرٹیفیکیٹس کا کوئی خرید و فروخت نہیں کی ہے۔

فنڈز کی سرمایہ کاری کی مالیت

مضاربہ اپنے مستقل ملازمین کے لیے شرکائی پروویڈنٹ فنڈ چلاتا ہے۔ مضاربہ اور ملازمین دونوں اس فنڈ میں ماہانہ مساوی حصہ، جو بنیادی تنخواہ کا 10 فیصد کی شرح ہوتا ہے اس فنڈ میں جمع کرتے ہیں۔ تازہ ترین فنڈ کے کھاتے کی بنیاد پر، 30 جون 2022 پر اس فنڈ کے سرمایہ کاری کی حساب کردہ مالیت / 5,828,699 روپے ہے۔

آمدنی فی سرٹیفیکیٹ

30 جون 2022 کو ختم ہونے والے سال پر آمدنی فی سرٹیفیکیٹ 0.38 روپے فی سرٹیفیکیٹ رہی جبکہ گذشتہ سال یہ آمدنی 0.22 روپے فی سرٹیفیکیٹ تھی۔

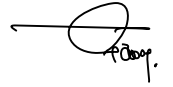

سٹائنس

بورڈ خواہش مند ہے کہ رجسٹرار مضاربہ اور سیکوریٹریز اینڈ ایگزیکٹو کمیشن آف پاکستان کا ان کی حمایت اور رہنمائی کرنے پر ان کا شکریہ ادا کرے۔ بورڈ اپنے افسران اور عملے کے ارکان کی سخت محنت اور عزم کا بھی اعتراف کرتا ہے۔ اور آخر میں بورڈ اپنے سرٹیفیکیٹ کنندگان کے مضاربہ کے ساتھ پر عزم رہنے پر ممنونیت کا بھی اظہار کرنا چاہتا ہے اور ان کی مستقبل میں مسلسل حمایت کی امید رکھتا ہے۔

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF TRUST MODARABA

REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Trust Modaraba for the year ended June 30, 2022 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Modaraba. Our responsibility is to review whether the Statement of Compliance reflects the status of the Modaraba's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Modaraba's personnel and review of various documents prepared by the Modaraba to comply with the Regulations.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Modaraba's corporate governance procedures and risks.

The Regulations require the Modaraba to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Modaraba's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Modaraba's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Modaraba for the year ended June 30, 2022.

AUDITORS' REPORT TO THE CERTIFICATE HOLDERS

We have audited the annexed balance sheet of Trust Modaraba (the Modaraba) as at June 30, 2022 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof (hereinafter referred to as the financial statements), for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit.

These financial statements are the Modaraba Company's [Al-Zamin Modaraba Management (Private) Limited] responsibility who is also responsible to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards as applicable in Pakistan and the requirements of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 (XXXI of 1980), and the Modaraba Companies and Modaraba Rules, 1981. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by the Modaraba Company, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- a) a) in our opinion, proper books of account have been kept by the Modaraba Company in respect of Trust Modaraba as required by the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 (XXXI OF 1980), and the Modaraba Companies and Modaraba Rules, 1981;
- b) in our opinion;
 - (i) the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980, (XXXI of 1980) and the Modaraba Companies and Modaraba Rules, 1981, and are in agreement with the books of account and are further in agreement with accounting policies consistently applied;
 - (ii) the expenditure incurred during the year was for the purpose of the Modaraba's business; and
 - (iii) the business conducted, investments made, and the expenditure incurred during the year were in accordance with the objects, terms and conditions of the Modaraba;

- c) in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof confirm with the approved accounting standards as applicable in Pakistan and give the information required by the Modaraba companies and the Modaraba (Floatation and Control) Ordinance, 1980 (XXXI of 1980) and the Modaraba Companies and the Modaraba Rules, 1981 in the manner so required and respectively give a true and fair view of the state of the Modaraba's affairs as at June 30, 2022 and of the profit, its cash flows and changes in equity for the year then ended; and
- d) No zakat was deducted at source under the Zakat and Ushr Ordinance, 1980.

Emphasis of Matter

We draw attention to note 20.3.1 to the financial statements for the year ended June 30, 2022, which inter alia states the details of land which is in the ownership but not in the possession of the Modaraba. Our opinion is not modified in respect of this matter.

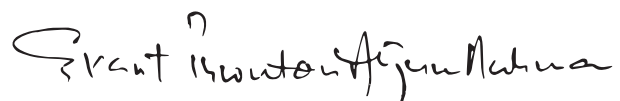

Other Matter

The financial statements of Trust Modaraba for the year ended June 30, 2021 were audited by other auditor who issued an unmodified opinion on those financial statements on September 16, 2021.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2022

1 LEGAL STATUS AND NATURE OF BUSINESS

Trust Modaraba (the Modaraba) was formed in Pakistan under the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 and the rules framed thereunder and is being managed by Al-Zamin Modaraba Management (Private) Limited (AZMML). The Modaraba commenced its business operations on November 12, 1991. It is listed on Pakistan Stock Exchange.

The Modaraba is perpetual, multi-purpose and multi-dimensional, engaged in the business of Murabaha, Musharakah and Ijarah arrangement, investment in marketable securities, trading and other permissible businesses. The affairs, activities and transactions, performed by the modaraba during the year comply with the rules and principles of Islamic Sharia in the light of guidance and directives given by sharia advisor and are in accordance with the guideline issued by advisor of the registrar modaraba, SECP.

The principal place of business and registered office is located at 104-106, Kassam Court, BC-9, Block-5, Clifton, Karachi - 75600 while regional office is located at 301 & 320, 3rd Floor, Garden Heights, 8-Aibak Block, New Garden Town, Lahore.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS), International Accounting Standards (IAS) and Islamic Financial Accounting Standards (IFASs), as are notified under the provisions of the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017 and requirement of Modaraba Companies and Modarabas (Flotation and Control) Ordinance, 1980, Modaraba Companies and Modaraba Rules, 1981 and Modaraba Regulations, 2021 for Modaraba (hereinafter referred to as the relevant laws). Until previous years, Modaraba was also following the requirement of Prudential Regulations for Modaraba, which are now replaced by Modaraba Regulations, 2021. There are no material adjustments requiring upon adoption of Modaraba Regulation, 2021 in place of Prudential Regulations for modarabas.

Wherever the requirements of the approved accounting standards differ from the relevant laws, the relevant laws have been followed.

2.2 Functional and presentation currency

These financial statements are prepared and presented in Pak Rupees which is the Modaraba's functional and presentation currency. All the figures have been rounded off to the nearest rupee, unless otherwise stated.

2.3 Basis of measurement

These financial statements have been prepared under the historical cost convention, except investments, investment property, assets held for sale, lease liabilities and right-of-use assets. Investments and investment property are measured at fair value. Assets held for sale are measured at lower of fair value less cost to sell or carrying value. Lease liabilities and right-of-use assets are initially measured at the present value of the lease payments that are not paid at the commencement date. Basis of measurement has been discussed in related notes 4.4, 4.20, 4.19 and 4.11.1 respectively. These financial statements have been prepared following accrual basis accounting except for cash flow information.

2.4 Changes in accounting standards, interpretations and pronouncements

2.4.1 Standards, amendments and interpretations to the published standards that may be relevant to the Modaraba and adopted in the current year

The Modaraba has adopted the following new standards, amendments to published standards and interpretations of IFRSs which became effective during the current year.

New or Revised Standard or Interpretation	Effective Date (Annual periods beginning on or after)
Annual improvements to IFRS standards 2018-2020	January 1, 2022

IFRS 16 - Covid-19-Related Rent Concessions beyond	April 1, 2021
IFRS-9 Financial instruments	January 1, 2021

2.4.2 Standards, amendments and interpretations to the published standards that may be relevant but not yet effective and not early adopted by the Modaraba.

The following new standards, amendments to published standards and interpretations would be effective from the dates mentioned below against the respective standard or interpretation.

Annual periods beginning on or after	Effective Date (Annual periods beginning on or after)
IAS 1 - Classification of Liabilities as Current or Non-current	January 1, 2023
IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction	January 1, 2023
Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)	January 1, 2023
IAS 8 - 'Definition of Accounting Estimates	January 1, 2023

The Modaraba is in the process of assessing the impact of these Standards, amendments and interpretations to the published standards on the financial statements of the Modaraba.

Standards, amendments and interpretations to the published standards that are not yet notified by the Securities and Exchange Commission of Pakistan (SECP)

Following new standards have been issued by the International Accounting Standards Board (IASB) which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standard or Interpretation	IASB Effective Date (Annual periods beginning on or after)
IFRS 17 'Insurance Contracts' and amendments to IFRS 17	January 1, 2023

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Modaraba's accounting policies. Estimates and judgments are continually evaluated and are based on historic experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future period affected. In the process of applying the Modaraba's accounting policies, the management has made the following estimates and judgments which are significant to the financial statements:

3.1 Useful lives, pattern of flow of economic benefits and impairment

The Modaraba's management determines the useful lives and related depreciation charge, the residual values and impairment of its fixed assets on regular basis. These are reviewed at the end of each reporting period and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets and the residual values, the same is changed to reflect the changed pattern. Such change is accounted for as change in accounting estimate in accordance with International Accounting Standard (IAS) 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

3.2 Provision against non performing financing

The Modaraba reviews its overdue receivables from ijarahs, murabahas and musharakahs at each reporting date to assess whether provision should be recorded in the profit and loss account, in addition to the mandatory provisions required in accordance with the Prudential Regulations issued by the Securities and Exchange Commission of Pakistan. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision. Income recognition on musharakah and Murabaha is suspended when it is past due by ninety days or more and classified as suspense income.

3.3 Impairment of other financial assets

Provision is recognized based on management judgment regarding the recoverability of balance under expected credit loss method. Balances considered bad and irrecoverable are written off when identified.

3.4 Provisions and Contingencies

The Modaraba reviews its provisions and contingencies at each reporting date to assess whether provision should be recorded in the profit and loss account. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provision required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the provision.

3.5 **NRV of stock in trade**

The Modaraba reviews the net realizable value of items of stock in trade to assess any possible impairment on annual basis. Net realizable value is estimated with reference to the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale. Any change in the estimates in the future might affect the carrying amount of respective stock in trade with corresponding effects on the provision for impairment, if any.

4 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, except for the adoption of IFRS 9 as mentioned in note 4.1 below:

4.1 **Change in accounting policy - Adoption of IFRS 9 'Financial Instruments'**

Effective from July 1, 2021, the Modaraba has adopted the requirement of IFRS 9, 'Financial Instruments' with respect to Expected Credit Loss (ECL) model. The ECL has an impact on the assets of the Modaraba which are exposed to credit risk. Provision for non-performing Islamic financing is made in accordance with the Modaraba Regulation, 2021 for modarabas issued by SECP vide SRO 284 (I) / 2021 dated March 05, 2021 and subsequent amendments made therein, and is charged to profit and loss account. Upon adoption of ECL model under IFRS 9, the Modaraba while recognizing provisioning for impaired assets has considered the amount which is higher of :

- the provisioning required under the Modaraba Regulation, 2021; and
- the provisioning required under IFRS 9 using the Expected Credit Loss (ECL) model

The Modaraba has adopted the requirements of ECL model as given in IFRS 9 using the modified retrospective approach. Accordingly, the cumulative impact of adoption has been recognised in the accumulated losses of current year and comparative figures have not been restated.

The impacts of applying ECL approach on the current year figures in profit and loss account and other comprehensive income, statement of changes in equity and cash flow statement are as follows:

- Decrease in earnings per certificate (0.01)

Impact on statement of changes in equity:

- Increase in accumulated losses (3,125,841)

The Modaraba applies the IFRS 9 general approach to measure Expected Credit Losses (ECL) for Ijarah, Murabaha and Diminishing Musharika. A lifetime ECL is recorded on Ijarah, Murabaha and diminishing musharika in which there have been Significant Increase in Credit Risk (SICR) from the date of initial recognition and which are credit impaired as on the reporting date. A 12 months ECL is recorded for Ijarah, Murabaha and diminishing musharika which do not meet the criteria for SICR or "credit impaired" as at the reporting date. To assess whether there is a significant increase in credit risk the Modaraba compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. The Modaraba also considers reasonable and supportive forwarding-looking information in determination of ECL.

4.2 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and balances with banks.

4.3 Advances, deposits and prepayments and other receivables

Advances, deposits and prepayments are initially recognized at cost being the fair value of the consideration paid together with the associated transaction cost. Trade and other receivables are initially measured at original invoice amount.

4.4 Financial instruments

Financial instruments include loans to / receivable from employees, long term deposits, trade receivables, advances, deposits and other receivables, cash and bank balances, murabaha finances, ijarah rental receivables, investments, creditors, accrued and other liabilities.

4.4.1 Financial assets

All financial assets are recognized at the time when the Modaraba becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized and derecognized, as applicable, using trade-date accounting or settlement date accounting.

4.4.1.1 Classification

The management determines the classification of its financial assets at the time of initial recognition and classifies its financial assets in the following three categories:

a) Financial assets at amortized cost

A financial asset is measured at amortized cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income

"A financial asset is measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Upon initial recognition, the Modaraba can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under IAS 32 Financial Instruments Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis."

c) Financial assets at fair value through profit or loss

A financial asset is measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income. However, the Modaraba can make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss to present subsequent changes in fair value in other comprehensive income unless these are held for trading in which case these have to be measured at fair value through profit or loss. The equity investments of the Modaraba held in short term investments are classified at fair value through profit or loss because they are frequently traded while equity investments in long term investments are classified at fair value through other comprehensive income because the Modaraba intends to hold these to collect dividends.

Reclassification

When the Modaraba changes its business model for managing financial assets, it reclassifies all affected financial assets accordingly. The Modaraba applies the reclassification prospectively from the reclassification date.

In case of reclassification out of the amortized cost measurement category to fair value through profit or loss measurement category, fair value of the financial asset is measured at the reclassification date. Any gain or loss arising from a difference between the previous amortized cost and fair value is recognized in profit or loss.

In case of reclassification out of fair value through profit or loss measurement category to the amortized cost measurement category, fair value of the financial asset at the reclassification date becomes its new gross carrying amount.

In case of reclassification out of fair value through other comprehensive income measurement category to the amortized cost measurement category, the financial asset is reclassified at its fair value at the reclassification date. However, the cumulative gain or loss previously recognized in other comprehensive income is removed from equity and adjusted against the fair value of the financial asset at the reclassification date. The effective interest rate and the measurement of expected credit losses are not adjusted as a result of the reclassification.

In case of reclassification out of fair value through profit or loss measurement category to the fair value through other comprehensive income measurement category, the financial asset continues to be measured at fair value.

In case of reclassification out of fair value through other comprehensive income measurement category to the fair value through profit or loss measurement category, the financial asset continues to be measured at fair value. The cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

4.4.1.2 Initial recognition and measurement

All financial assets are recognized at the time when the Modaraba becomes a party to the contractual provisions of the instrument. Regular purchases and sales of investments are recognized on trade-date that is the date on which the Modaraba commits to purchase or sell the asset.

Except for receivables from Modaraba's main operations, financial assets are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the profit and loss account. Dividend income from financial assets at fair value through profit or loss is recognized in the profit and loss account when the Modaraba's right to receive payments is established. Receivables from Modaraba's main operations are initially measured at the transaction price if these do not contain a significant financing component in accordance with IFRS 15. Where the Modaraba uses settlement date accounting for an asset that is subsequently measured at amortized cost, the asset is recognized initially at its fair value on the trade debt.

4.4.1.3 Subsequent measurement

Financial assets carried at amortized cost are subsequently measured using the effective interest method. Gain or loss on financial assets not part of hedging relationship is recognized in profit and loss account when the financial asset is derecognized, reclassified, through the amortization process or in order to recognize impairment gains or losses.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Modaraba recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in profit and loss account.

Financial assets 'at fair value through other comprehensive income' are marked to market using the closing market rates and are carried in the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are recognized in other comprehensive income. Interest calculated using the effective interest rate method is credited to the statement of profit or loss account. Dividends on equity instruments are credited to the statement of profit and loss account when the Modaraba's right to receive payments is established.

Financial assets 'at fair value through profit and loss' are marked to market using the closing market rates and are carried in the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are taken to the profit and loss account in the period in which these arise. Fair values of quoted investments are based on current prices. Fair value hierarchies are described in note 4.18.

4.4.1.4 Derecognition

Financial assets are derecognized when:

- the contractual rights to receive cash flows from the assets have expired; or
- the Modaraba has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - a) the Modaraba has transferred substantially all the risks and rewards of the asset; or
 - b) the Modaraba has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The difference between the carrying amount and the consideration received is recognized in profit or loss.

When the Modaraba has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Modaraba continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Modaraba also recognizes an associated liability which cannot be offset with the related asset. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Modaraba has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Modaraba could be required to repay.

If the Modaraba's continuing involvement is in only a part of a financial asset, the Modaraba allocates the previous carrying amount of the financial asset between the part it continues to recognize under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the consideration received for the part no longer recognized is recognized in profit and loss account.

4.4.1.5 Impairment of financial assets

The Modaraba directly reduces the gross carrying amount of a financial asset when it has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

The Modaraba recognizes the impairment at each reporting date for outstanding Ijarah, murabaha and musharakah receivables on the basis of Prudential Regulations issued for Modarabas by the Securities and Exchange Commission of Pakistan (SECP). Loss allowance calculated under IFRSs is compared with the impairment calculated on the basis of Prudential Regulations.

For other financial assets, the Modaraba recognizes a loss allowance for expected credit losses on a financial asset measured at amortized cost and through other comprehensive income. In case of financial assets measured at fair value through other comprehensive income, loss allowance is recognized in other comprehensive income and carrying amount of the financial asset in the balance sheet is not reduced.

The Modaraba measures, at each reporting date, the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. Where the credit risk on a financial instrument has not increased significantly since the initial recognition, the Modaraba measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

The Modaraba uses the simplified approach and measures the loss allowance at an amount equal to lifetime expected credit losses for trade receivables or contract assets that result from transactions under IFRS 15 and lease receivables.

The Modaraba recognizes the amount of expected credit losses (or reversal), that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, in the profit and loss account.

4.4.2 Financial liabilities

4.4.2.1 Initial recognition and measurement

All financial liabilities are recognized at the time when the Modaraba becomes a party to the contractual provisions of the instrument.

Financial liabilities are classified, at initial recognition, as financial liabilities at amortized cost except for financial liabilities at fair value through profit or loss, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition.

The Modaraba does not reclassify any of its financial liabilities.

Financial liabilities are initially recognized at fair value minus transaction costs for all financial liabilities not carried at fair value through profit or loss. Financial liabilities carried at fair value through profit or loss are initially recognized at fair value and transaction costs are credited in the profit and loss account.

4.4.2.2 Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

The amount of change in the fair value that is attributable to changes in the credit risk of financial liability is presented in other comprehensive income and the remaining amount of change in the fair value of the liability is presented in profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if it eliminates or significantly reduces a measurement or recognition inconsistency or a group of financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the Modaraba's key management personnel. The Modaraba has not designated any financial liability as at fair value through profit or loss.

All other liabilities

All other financial liabilities are measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in profit and loss account.

4.4.2.3 Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognized in the profit and loss account. The difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

If the Modaraba repurchases a part of a financial liability, the Modaraba allocates the previous carrying amount of the financial liability between the part that continues to be recognized and the part that is derecognized based on the relative fair values of those parts on the date of the repurchase. The difference between the carrying amount allocated to the part derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, for the part derecognized is recognized in profit or loss.

4.4.3 **Offsetting of financial assets and liabilities**

A financial assets and a financial liabilities are offset and the net amount is reported in the balance sheet if the Modaraba has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4.5 **Murabaha and Musharakah arrangements**

4.5.1 **Murabaha arrangements**

Modaraba obtains an undertaking (promise to purchase) from the client and purchases the requested assets / goods from third parties and takes possession of such goods / assets that are the subject matter of murabaha arrangements. However, the Modaraba can appoint the client as its agent to purchase the assets/goods on its behalf. Thereafter, its sells these goods / assets to the client at cost plus the profit agreed upon in the promise. Murabaha sale is recorded at the invoiced amount and profit is recognized in accordance with IFAS-1 (Murabaha) to the extent of pro-rata portion of sale price received as compared to total agreed price. Profit on the portion of sale revenue not due for payment is deferred and recognized as liability. Goods purchased by the Modaraba but remained unsold, with the Modaraba constitute inventories, if any at reporting date.

4.5.2 **Musharakah arrangements**

The Modaraba measures the musharakah receivables on the basis of installments accrued during the year. The installments are accrued on pro-rata basis as per terms of the musharakah agreement between the Modaraba and customer.

4.6 **Tangible fixed assets**

4.6.1 **Operating fixed assets in own use and related depreciation**

Operating fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged to income by applying the straight-line method at the rates given in note 20.

Depreciation on additions to operating fixed assets is charged from the month in which the asset is acquired while no depreciation is charged for the month in which the asset is disposed off.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized. Gain/loss on disposal of assets is charged to current year's income.

4.6.2 **Assets given to customers on lease and related depreciation**

Leased assets are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged to income by applying the straight line method whereby the cost of an asset less salvage value is written off over the leased period, which is considered to be the estimated useful life of the asset. Depreciation on additions and disposals during the year is charged proportionately from the date of commencement of the lease to the date of its maturity / termination. Gain/loss on disposal of assets is charged to current year's income.

4.6.3 **Assets given to customers held under Ijarah arrangements**

Assets given to customers under ijarah arrangements are assets available / held for ijarah which are accounted for as operating lease assets in accordance with IFAS-2 and are stated at cost less accumulated depreciation and impairment loss, if any. Assets under ijarah arrangements are depreciated using the straight line basis over the period of lease term. In respect of additions and transfers during the year, depreciation is charged proportionately over the period of ijarah. Gain/loss on disposal of assets is charged to current year's income.

4.7 **Impairment of assets**

The Modaraba assesses, at each reporting date, whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognized in the profit and loss account. A previously recognized impairment loss is reversed only if there is a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the profit and loss account. Where an impairment loss is recognized, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount over its estimated useful life.

4.8 **Stock in trade**

4.8.1 **Stock in trade for murabaha transactions**

Murabaha transactions are entered into on customer order basis. The requested goods / assets are procured on customer request and are immediately transferred to the customer. Therefore, in normal circumstances, there is no inventory. However, unsold inventory, if any, is measured at lower of cost and net realizable value as at the reporting date. Cost is determined on weighted average basis.

4.8.2 **Stock in trade for trading purpose**

Stock in trade is measured at lower of cost and net realizable value as at the reporting date. Cost is determined on weighted average basis.

Net realizable value signifies the estimated selling price in the ordinary course of business less costs necessary to be incurred in order to make a sale. If the net realizable value is lower than the carrying amount, a write-down is recognized for the amount by which the carrying amount exceeds its net realizable value. Provision is made in the financial statements for obsolete and slow moving stock in trade based on management estimate.

4.9 **Provisions**

Provisions are recognized when the Modaraba has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates.

4.10 **Ijarah assets acquired for own use**

The Modaraba has entered into ijarah contracts under which it obtains usufruct of an asset for an agreed period for an agreed consideration. The ijarah contracts are undertaken in compliance with the Sharia essentials for such contracts.

The Modaraba accounts for its ijarah contracts in accordance with the requirements of IFAS 2 'Ijarah'. Accordingly, the Modaraba as a Mustaj'ir (lessee) in the Ijarah contract recognizes the Ujrah (lease) payments as an expense in the profit and loss on straight line basis over the ijarah term.

4.11 Leases

For contracts entered into, or modified, on or after July 1, 2019; the Modaraba applies IFRS 16 to such transactions, except for the transactions where Modaraba is a lessor and the lease is an operating lease, and in such cases, the provisions of IFAS-2 are applied. The Modaraba assesses whether a contract contains a lease or not at the inception of a contract. For lease contracts the Modaraba reassesses whether a contract is, or contains, a lease further when the terms and conditions of the contract are modified.

The Modaraba determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Modaraba is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Modaraba is reasonably certain to not to exercise that option.

The Modaraba reassesses whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the Modaraba and affects whether the Modaraba is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in the determination of the lease term.

The Modaraba revises the lease term if there is a change in the non-cancellable period of a lease.

4.11.1 Modaraba as a lessee

Recognition

The Modaraba recognizes a right-of-use asset and a lease liability at the commencement date. A commencement date is the date on which the lessor makes an underlying asset available for use by the lessee (the Modaraba).

The Modaraba has elected not to recognize right-of-use assets and lease liabilities for short-term leases of all underlying assets that have a lease term of 12 months or less and leases for which the underlying asset, when new, is of low-value as per the threshold set by the Modaraba. The Modaraba recognizes the lease payments associated with these leases as an expense on straight-line basis over the lease term.

Initial measurement

Lease liability

At the commencement date, the Modaraba measures the lease liability at the present value of the lease payments that are not paid. The lease payments are discounted using the interest rate implicit in the lease, or the Modaraba's incremental borrowing rate if the implicit rate is not readily available. Generally, the Modaraba uses its incremental borrowing rate as the discount rate.

Lease payments comprise fixed payments less any lease incentives receivable; variable lease payments that depend on an index or a rate; amounts expected to be payable by the Modaraba under residual value guarantees; the exercise price of a purchase option if the Modaraba is reasonably certain to exercise that option; and payments of penalties for terminating the lease, if the lease term reflects the Modaraba exercising an option to terminate the lease.

Right-of-use asset

The Modaraba initially measures the right-of-use asset at cost. This cost comprises the amount of lease liability as initially measured, plus any lease payments made on or before the commencement date, less lease incentives received, initial direct costs and estimated terminal costs (i.e. dismantling or other site restoration costs required by the terms and conditions of the lease contract).

Subsequent measurement

Lease liability

After the commencement date, the Modaraba re-measures the lease liability to reflect the effect of interest on outstanding lease liability, lease payments made, reassessments and lease modifications etc. Variable lease payments not included in the measurement of the lease liability and interest on lease liability are recognized in the profit or loss account, unless these are included in the carrying amount of another asset.

Lease payments are apportioned between the finance charges and reduction of the lease liability using the incremental borrowing rate implicit in the lease to achieve a constant rate of interest on the remaining balance of the liability.

Lease liability payable in foreign currency is translated to local currency of the Modaraba at the reporting date. Any foreign exchange differences arising on translation of lease liability are recognized in profit or loss.

Right-of-use asset

After the commencement date, the Modaraba measures the right-of-use asset at cost less accumulated depreciation and accumulated identified impairment losses, if any, adjusted for any remeasurement of the lease liability.

The Modaraba depreciates the cost of right-of-use asset, net of residual value, from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. However, if the lease contract transfers ownership of the underlying asset to the Modaraba by the end of the lease term or if the cost of the right-of-use asset reflects that the Modaraba will exercise the purchase option, the Modaraba depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset.

Depreciation is charged to profit or loss account at rates given in note 20.2.

4.11.2 Modaraba as a lessor

Leases in which the Modaraba does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Such leases are treated under IFAS-2 and the accounting policy for assets given to customers under ijarah arrangements (Note 4.6.3) is applied for such leases.

4.12 Revenue from Contracts with Customers

Revenue from ijarah and murabaha is recognized as per the requirements of the Islamic Financial Accounting Standards (IFASs). Repayment schedule is agreed at the start. Payments are usually due over the period of contract at different dates.

Murabaha profit

Profit on transactions under murabaha arrangements is recognized on a pro-rata basis taking into account the elapsed duration for payment of murabaha amounts payable by the customer. Profit not due for payment in the current year is deferred by accounting for unearned murabaha income with corresponding credit to deferred murabaha income which is recorded as a liability. The same is then recognized as revenue on a time proportionate basis as and when the due dates approach for payment of recoverable amounts by the customers.

Musharakah profit

Profit on diminishing musharakah transactions is recognized on accrual basis.

Ijarah rentals

Ijarah income is recognized in income on an accrual basis as and when the rental becomes due, unless another systematic basis is more representative of the time pattern in which the benefit of the use derived from the leased asset is diminished.

Dividend income

Dividend income is recognized when the right to receive dividend is established.

Capital gain or loss

Capital gain or loss on sale of investments is recognized in the period in which it arises.

Sale of goods

Revenue from sale of goods is recognized on dispatch of goods to customers.

Rental income

Rental income from investment properties is recognized on time proportionate basis.

Return on deposit accounts

Return on deposit accounts is recognized on accrual basis.

4.13 Taxation

Current

Provision for current taxation is based on taxable income at current rates of taxation after taking into account applicable tax credit, rebates and exemption available, if any as per Income Tax Ordinance, 2001.

Deferred

Deferred taxation is accounted for using the balance sheet liability method providing for temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary timing differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated based on the rates that have been enacted or notified for subsequent enactment up to the reporting date and are expected to apply to the period when the difference arises.

4.14 **Post employment benefits**

The Modaraba maintains a defined contribution plan for post employment benefits and operates an approved provident fund for all its employees. The Modaraba and the employees both make equal monthly contributions to the fund at the rate of 10% of the basic salary of employees.

4.15 **Dividend - Profit distribution and other appropriations of profit**

Dividend distribution to the Modaraba's certificate holders is recognized as a liability in the financial statements in the period in which the dividends are approved by the Modaraba Management Company. Transfer to statutory reserve and any of the mandatory appropriations as may be required by law are recognized in the period to which these relate.

Appropriations to statutory reserves declared / approved subsequent to balance sheet date are considered as non-adjusting event and are not recorded in financial statements of the current year. These are recognized in the year in which these are declared / approved.

4.16 **Earnings per certificate**

The Modaraba presents basic and diluted earnings per certificate (EPC). Basis EPC is calculated by dividing the profit or loss attributable to ordinary certificate holders of the Modaraba by the weighted average number of ordinary certificates outstanding during the year. Diluted EPC is determined by adjusting the profit or loss attributable to ordinary certificate holders and the weighted average number of ordinary certificates outstanding for the effects of all dilutive potential ordinary certificates, if any.

4.17 **Operating segments**

An operating segment is a component of an entity:

- a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and
- c) for which discrete financial information is available.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Chief Executive Officer of the Modaraba has been identified as Chief Operating Decision Maker.

The Modaraba is divided into five operating segments:

- Murabaha finances;
- Ijarah finances;
- Musharakah finances;
- Investments; and
- Trading of stock.

All these operating segments are located in Pakistan.

4.17.1 **Segment assets and liabilities**

The assets of a segment include all operating assets used by a segment and consist principally of receivables and fixed assets, net of allowances and provisions. Segment liabilities are primarily unallocable.

4.17.2 **Allocation of segment expenses**

All identifiable expenses are directly attributed to the respective segments.

4.18 **Fair value measurement**

The Modaraba measures certain financial instruments, and non-financial assets such as investment properties, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Modaraba has access at that date. The fair value of a liability reflects the effect of non-performance risk. When applicable, the Modaraba measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When measuring fair value, the Modaraba takes into account the characteristics of asset or liability which include the condition and location of the asset and restrictions, if any, on the sale or use of the asset.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Modaraba uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Valuation techniques used to measure fair value are applied consistently unless a change in a valuation technique or its application results in a measurement that is equally or more representative of fair value in the circumstances. Revisions resulting from a change in the valuation technique or its application are accounted for as a change in accounting estimate.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within different levels of the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole.

Fair value hierarchy categorizes into following three levels the inputs to valuation techniques used to measure fair value:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Modaraba can access at the measurement date.
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 — Unobservable inputs for the asset or liability.

For the purpose of fair value disclosures, the Modaraba has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

4.19 **Assets classified as held for sale**

Non-current assets classified as held for sale are presented separately and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. However, some held for sale assets such as financial assets or deferred tax assets, continue to be measured in accordance with the Group's relevant accounting policy for those assets. Once classified as held for sale, the assets are not subject to depreciation or amortization.

4.20 **Valuation of investment properties**

The Modaraba reviews the fair value of investment property at each reporting date. The fair value is determined based on market values; being the estimated amount for which a property could be exchanged on the date of valuation between knowledgeable willing parties in an arm's length transaction.

20.3.1 It represents a piece of land measuring 10 Kanals, costing Rs. 10,728,400 situated at Mauza Amer Sidhu, Lahore Cantt. acquired through settlement of certain Murabaha facilities. The subject land is presently in the possession of Defence Housing Authority, Lahore (DHA). The Modaraba has filed legal suit in the Civil Court, Lahore for possession of land. The management and legal counsel of the Modaraba are confident that Modaraba has valid claim against DHA because title and sale deed is in the name of the Modaraba and accordingly no loss has been recorded against such land. Management is also making efforts to achieve out of court settlement and next date of hearing is 7th October, 2022 for further processing of the case.

31 CONTINGENCIES AND COMMITMENTS

31.1 Contingencies

31.1.1 Notice was served to Trust Modaraba dated 28 August 2018, along with certain other modarabas, by Sindh Revenue Board (SRB) for the recovery of tax under Sindh Sales Tax on Services Act, 2011 amounting to Rs. 38.52 million comprising allegedly unpaid sales tax on services rendered in Sindh from years 2011-12 to 2017-18.

The Modaraba along with other Modarabas has filed a petition in Honorable Sindh High Court (SHC) on September 1, 2018 challenging the demand of Sindh Revenue Board (SRB) on the grounds of non-applicability of sales tax. A stay order in this regard has been granted by the SHC stating that no adverse order in respect of the proposed treatment shall be made against the Petitioners. The management of the Modaraba based on its discussions with its legal counsel is of the view that in light of the stay order of the Court and the merits of the matter involved, the impugned charge of sales tax will be quashed and favorable outcome is expected. Therefore, no provision for any sales tax liability on rentals of lease financing has been made in the financial statements. The expected date of hearing is 12 October, 2022 for further processing of the case.

The Assistant commissioner Inland Revenue has issued order dated June 30, 2022 by creating demand under sub-section 161 of Rs 1,038,285 along with default surcharge of Rs 809,862. The tax payer has filed appeal against said order on July 16, 2022. Hearing of the case is pending and date of hearing is not yet fixed. In view of tax consultant, the favorable outcome is expected in favor of modaraba.

31.2 Ijarah commitments

The Modaraba has entered into ijarah arrangements for vehicles. These arrangements have remaining terms of less than five years. Such arrangements also include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions. Future ijarah payments due under these arrangements at the year end are as follows:

44 FINANCIAL RISK MANAGEMENT

The Modaraba's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Modaraba's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board) of the Management Company, chief operating officer and chief financial officer. The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

The Modaraba's overall risk management procedures, to minimize the potential adverse effects of financial market on its performance, are as follows:

44.1 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign currency, profit rate, commodity price and equity price that will affect the Modaraba's income or the value of its holdings of financial instruments.

44.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies. The Modaraba is not exposed to currency risk arising from currency exposure as Modaraba is not involved in foreign currency transactions.

44.1.2 Profit rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market profit rates.

As at the reporting date the profit rate profile of the Modaraba's profit bearing financial instruments were as under:

Fixed rate instruments

Floating rate instruments

Financial assets

Bank balances - deposit accounts	5	3,116,919	5,077,166
Bank balances - dividend account	5	4,531,160	148,787

Fair value sensitivity analysis for fixed rate instruments

The Modaraba does not account for any fixed rate financial assets at fair value through profit and loss. Therefore, a change in profit rate at the reporting date would not affect profit or loss of the Modaraba.

Cash flow sensitivity analysis for variable rate instruments

If profit rates, as at the reporting date, fluctuates by 1% higher / lower with all other variables held constant, profit before taxation for the year would have been Rs. 71,143 (2021: Rs. 52,260) higher / lower. This analysis is prepared assuming the amounts of floating rate instruments outstanding at reporting dates were outstanding for the whole year.

44.2 Credit risk

44.2.1 Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date, net of impairment, was as follows:

The Modaraba has adopted a policy of only dealing with creditworthy parties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Modaraba also uses other publicly available financial information and its own trading records to rate its customers. The Modaraba's exposure and the credit ratings of its parties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed annually.

The management monitors and limits Modaraba's exposure to credit risk through monitoring of clients' credit exposure, reviews and conservative estimates of provisions for doubtful receivables, if any, and through the prudent use of collateral policy. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in organizations of sound financial standing covering various industrial sectors and segments.

44.2.4 The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate. The table below shows the bank balances and investments held with some major counterparties at the reporting date:

	Rating	Rating		2022	2021
	Short term	Long term	Agency	-----Rupees-----	
The Bank of Punjab	-	AA	PACRA	-	148,787

State Bank of Pakistan				12,317	10,414
				7,662,018	5,387,341

Further, the Modaraba's exposure to credit risk and impairment losses related to Investments, Murabaha financing, Ijarah financing, and other receivables are disclosed in the relevant notes to the financial statements.

The Modaraba's exposure related to ijarah receivables, murabaha receivables and musharakah receivables are secured by collaterals held and the Modaraba's portfolio of financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

44.3 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Modaraba's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Modaraba's reputation. Owing to the fact that the Modaraba is in a positive working capital position at the year end, the management believes the liquidity risk to be low.

The table below analyses the Modaraba's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equate to their carrying balances as the impact of discounting is not significant.

Note 43 to the financial statements summarizes the maturity profile of the Modaraba's assets and liabilities.

44.4 Fair value of financial instruments

All financial assets and financial liabilities are initially recognized at the fair value of consideration paid or received, net of transaction costs as appropriate, and subsequently carried at fair value or amortized cost.

The carrying values of all financial assets and liabilities reflected in financial statements approximate to their fair values. Fair value is determined on the basis of objective evidence at each reporting date.

Fair value estimation

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the reporting date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as there is an active market for the Modaraba listed equity investments.

Fair value hierarchy

Fair value hierarchy categories are described in note 4.18 to the financial statements.

The following table presents the Company's financial assets that are measured at fair value at June 30, 2022:

44.6 Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Modaraba's operations either internally within the Modaraba or externally at the Modaraba's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior. Operational risks arise from all of the Modaraba's activities.

The Modaraba's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its objective of generating returns for certificate holders.

The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors of the Management Company. This responsibility encompasses the controls in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- ethical and business standards; and
- risk mitigation, including insurance where this is effective.

44.7 Capital risk management

The Modaraba's objectives when managing capital are to safeguard the Modaraba's ability to continue as a going concern in order to provide return for certificate holders and benefits for other stakeholders and to maintain healthier capital ratios in order to support its business and maximize certificate holders value. The Modaraba manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. There were no changes to the Modaraba's approach to capital management during the year and the Modaraba is not subject to externally imposed capital requirement.

The Company finances its operations through equity, loan from director and management of working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

47 SEGMENT REPORTING

47 An operating segment is a group of assets and operations engaged in providing products that are subject to risks and returns that are different from those of other business segments. The management has determined the operating segments based on the information that is presented to the Chief Executive Officer (Chief Operating Decision Maker) for allocation of resources and assessments of performance. Based on internal management reporting structure and products produced and sold, the Modaraba is organized into following five operating segments:

Types of segments

Nature of business

- Murabaha finances
 - Ijarah finances
 - Musharakah finances
 - Investments
 - Trading of stock
- Sale of goods under murabaha arrangement
Giving right to the benefit of using an asset for a consideration
Joint enterprise formed for conducting some business
Investments made in equity instruments of other companies and other investments
Purchase and sale of stock in trade, including potatoes, rice, tractors, chillies, vehicles etc.

No operating segments have been aggregated to or form the above reportable operating segments.

The Chief Executive Officer monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is generally evaluated based on certain key performance indicators including business volume, gross profit, profit from operations, reduction in operating cost and free cash flows.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties. There were no transfers between operating segments during the year (2021: Nil).
